Career Objective

As a B.Tech graduating student specializing in Artificial Intelligence and Machine Learning, I aspire to begin my career as a Python Machine Learning Engineer by applying my skills in Python, data preprocessing, model development, and algorithm optimization to solve real-world problems and enhance intelligent systems.

Education

Veltech University, Chennai Bachelor of Technology in Artificial Intelligence and Machine Learning, GPA: 8.0	<i>2022–2026</i>
Sri Chaitanya Junior College, Reddypalem Intermediate in MPC (Maths, Physics & Chemistry), Score: 95%	<i>2020–2022</i>
Navodaya E.M School, Rajupalem Schooling in APSSC Board, Score: 92%	<i>2019–2020</i>

Technical Skills

- **Programming Languages:** Python
- **Machine Learning & AI:** Scikit-learn, TensorFlow, Keras, NumPy, Pandas
- **Data Analysis & Visualization:** Matplotlib, Seaborn, Power BI
- **Databases:** MySQL
- **Tools & IDEs:** Jupyter Notebook, Google Colab, VS Code, PyCharm
- **Version Control & Deployment:** Git, GitHub

Projects

Predicting Crop Diseases using ML

Built a CNN model using TensorFlow and Keras to detect plant diseases from images with over 90% accuracy. Trained on 80,000+ images with preprocessing using OpenCV. Developed and tested on Google Colab for real-world farming support.

Email Spam Detection using NLP

Built a text classification model using Naïve Bayes and TF-IDF Vectorization to detect spam emails. Achieved high accuracy through text preprocessing and model tuning with Scikit-learn.

Cricket-Alerts (Python, WhatsApp Bot)

Developed a Python-based WhatsApp bot delivering live and completed cricket match scores using real-time cricket APIs. Integrated automated score updates, interactive match selection, and API communication for accurate, instant responses.

Certificates

- **Machine Learning with Python** — Coursera
- **Introduction to Data Science** — IBM SkillsBuild
- **Deep Learning Specialization** — Coursera (Andrew Ng)
- **Data Visualization with Matplotlib and Seaborn** — Udemy

Hobbies

- Playing Cricket
- Listening to Podcasts
- Exploring social trends
